DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee. The application has been amended as follows:

Authorization for this examiner's amendment was given in a telephone interview with Mr. Paul D. Durkee on 07/19/2007.

In claim 8 line 1, -- A probe card including probes, each of the probes -- has been changed to -- A probe card including a main probe and an auxiliary probe, each of the probes -- ; line 9 -- the auxiliary probe -- has been changed to -- the auxiliary probe -- .

Reasons for Allowance

2. Claims 1-5 and 8 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claim 1 recites an auxiliary probe being fixedly attached to one side of the main probe, the auxiliary probe including a body part identical to the body part of the main probe, the body part being attached to one side of the body part of the main probe so that the body part is elastically tensioned or compressed when a tension force or a compression force is applied to the body part at the upper and lower ends thereof, thereby reinforcing the strength of the probe; and a connection part identical to the

connection part of the main probe, wherein the auxiliary probe is not provided with a tip part, in combination with other elements of the claim. Claims 2-5 depend from claim 1 and they are also allowed.

Claim 8 recites the auxiliary probe being fixedly attached to one side of the main probe, the auxiliary probe including a body part identical to the body part of the main probe, the body part being attached to one side of the body part of the main probe so that the body part is elastically tensioned or compressed when a tension force or a compression force is applied to the body part at the upper and lower ends thereof, thereby reinforcing the strength of the probe; and a connection part identical to the connection part of the main probe, wherein the auxiliary probe is not provided with a tip part, in combination with other elements of the claim.

These features in combination with other elements of the claims are neither disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Doemens et al. (US 4,967,148) discloses an "Apparatus for electrical function testing of wiring matrices, particularly of printed circuit board".

Mori et al. (US 6,967,493) discloses a "Probe card and contactor of the same".
